Roy Richard Grinker, PhD
Professor of Anthropology, International Affairs, and Human Sciences, The George Washington University

**Shadow & Camouflage:**
Mental Illness, Psychiatry & the Decline of Stigma in Autism

Thursday, April 12, 2018, 6:30 p.m.
Levine Science Research Center

Dr. Roy Richard Grinker, Professor of Anthropology, International Affairs, and Human Sciences, will offer cross-cultural and historical perspective on the concept of stigma and address the question of why autism and other conditions are arguably less stigmatized today than in the past, while others, such as schizophrenia, bipolar disorder, and borderline personality disorder, remain in stigma’s shadow.

Please join us for this special event in honor of National Autism Awareness Month. You may register by using the QR code below or at autismcenter.duke.edu/events
